

MOUNTAIN STATES ENGINEERING & CONTROLS

Cast iron, CS, forged steel, SS, bronze gate, globe, check, ball and butterfly valves.

Floating NPT, SW & FLG up to 600 ANSI Class, Trunnion mounted ball valves up to 2500 ANSI Class

Sleeved and lined plug valves including severe service

Wye and basket strainers

Weir & straight-thru style diaphragm valve

Pneumatic quarter turn rack & pinion actuator

Safety and relief valve products

Center guided, globe, single and dual disc check valves; Wye and basket strainers

Globe and rotary valve systems. Up to 36", pressure up to class 4500. Special trims.

Automated 2 & 3-way globe and e-ball control valves for industrial and building automation

Steam specialties, flow meters and boiler controls.

1520 Iris Street
Lakewood, CO 80215

MOUNTAIN STATES ENGINEERING & CONTROLS

Electric condensate and boiler feed pumps. Direct acting temperature control valves

Steam trap repair kits for all makes and models. Hot water & steam radiator temperature control valves

Watson McDaniel steam specialties

Industrial Freeze-Proof & High-Pressure Steam Coils & Unit Heaters

Non-corroding HDPE towers with 20-year warranty. Anti-microbial materials option for legionella control

Industrial shell & tube heat exchangers including custom designs. Tube bundles.

Plate & Frame heat exchangers and replacement parts.

Regenerative turbine low NPSH chemical, condensate, BFW pumps

Custom Control Sensors pressure, temperature and vacuum switches

Sanitary level transmitters, indicators and displays. Instrument air filters and desiccant

Level, pressure, temperature, analytical sensors and transmitters; microprocessor controllers and PC based process monitoring software.
